

Centers for Medicare & Medicaid Services (CMS) Strategic Partners Acquisition Readiness Contract (SPARC)

Contract Description

CMS is the public health agency responsible for transforming the nation's health care system, with the ultimate goal of improving the quality and affordability of care for all Americans. Building on a proud track record of innovation, CMS is embarking on an exciting, high-profile journey by establishing a broader Information Technology support program with the 10-year SPARC IDIQ to support its mission. The objectives of SPARC include inserting new technology and capability in Information Technology (IT) support, increasing synergies, reducing risk, and establishing standards and accountability across CMS, as well as potentially other Health and Human Services programs/ customers to address the challenge of rising costs to ultimately deliver improved health care solutions.

Team Zantech

Our Team possesses extensive corporate capabilities, skilled personnel, and proven management processes certified in accordance with CMS industry best practices. Our quality processes and corporate commitment to improve healthcare delivery and lower costs through effective IT support places our team in a strong position to respond to CMS task orders (TO). We have a SPARC Program Management Office to manage concurrent TOs, track metrics, and effectively control performance.
